SUMMARY

IT Engineering graduate skilled in React.js and UI/UX design, with an Accenture UX Designer Certification. Experienced in designing intuitive interfaces, prototyping user flows, and building responsive web applications. Passionate about merging creative design and front-end development to deliver seamless user experiences. Looking to join a UI/UX Developer role to contribute to impactful digital products.

TECHNICAL SKILLS

UI/UX Design: Figma, Wireframing, Prototyping, User Research, Adobe Photoshop

Front-End Development: React.js, Next.js, HTML5, CSS3 (Tailwind CSS, SCSS, Bootstrap), JavaScript (ES6+), TypeScript

Development Tools & Version Control: VS Code, Node.js & NPM, Git, GitHub

Graphic Design & Digital Media : Thumbnail Design, Poster & Flyer Design, Social Media Design

PROJECTS

Wellnessly - Yoga Learning App

Aug 2025

UI/UX Case Study

Figma, Prototyping, User Interface Design

Developed a health & wellness mobile app case study with live yoga programs, wellness quizzes, and holistic tracking, designing 20+ interactive screens and user flows to showcase engagement and app experience.

Idukki Tourism - Homepage Design

Jul 2025

UI/UX Case Study

Web UI Design, Figma, Prototyping

Designed a tourism webpage concept for Idukki, focusing on homepage/landing page design. Features include itinerary planning, location discovery, trip booking interface, and interactive UI elements, emphasizing visually appealing and user-friendly experience.

Vaishak's Portfolio Website

Mar 2025

Modern Design

Web UI Design, Next.js, React.js TailwindCSS, Typescript, AOS, Emailjs, HTML

Developed a fully responsive Next.js/TypeScript portfolio with AOS animations, a custom cursor, styled scrollbar, interactive elements, React-Parallax-Tilt, React-Carousel, and an EmailJS contact form, all styled with TailwindCSS.

MindFlow AI : Personal Listener

Mar 2025

Gemini Clone UI

User Interface Design, React.js, Google Gemini API, SCSS, HTML, JavaScript

Developed an interactive chat platform using Google's Gemini 2.0 API and React's useContext for global state management, incorporating visually appealing animations to enhance user experience and engagement, allowing users to share concerns with a personalized listening experience.

CleverHire: Automated Campus Placement System

Apr 2024

Web Design

Website Design, Python, Flask, HTML, CSS, Javascript

Enhanced web interactivity by 20% through developing 20+ responsive pages with JavaScript timers and popups, created a customizable HTML resume template for students, and collaborated on a Flask-based face recognition system for placement processes.
